

/ Data Sheet

Air-Recycling Aspirator - Model TFXH

Product Features and Structure:

- Auxiliary cleaning equipment for light impurity and dust. It can be integrated with other cleaner or applied as a stand alone equipment in the processing stream
- Self contained blower and air recycling system to separate lights and dust from grain stream
- Unique mechanism for impurity discharge and air tight (Patent: ZL200920091084.9)
- Flapper discharge for self closure to ensure air recycling and dust free
- Adjustable air channel for required parameters of air dynamics
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Parameter Model	Capacity (t/h)		Power	Air Volume (m ³ /h)		Size
	Cleaning	Pre-cleaning	(kW)	Cleaning	Pre-cleaning	(mm)
TFXH60	9	40	0.75 + 2.2	240	480	1240 x 1005 x 1745
TFXH80	12	50	0.75 + 2.2	300	550	1440 x 1005 x 1745
TFXH100	16	65	0.75 + 2.2	360	600	1640 x 1005 x 1745
TFXH125	20	83	0.75 + 2.2	400	650	2300 x 1005 x 1745
TFXH150	24	100	1.1 + 2.2 x 2	480	720	2550 x 1005 x 1745
TFXH180	28	105	1.1 + 2.2 x 2	520	760	2850 x 1005 x 1745
