

/ Data Sheet

Aspirator Drum - Model TXFL

Product Features and Structure:

- Stand alone aspirator for cleaning light impurity and dust
- Cone shaped structure for spreading grain stream uniformity
- Adjustable material inlet for required processing parameters
- High capacity with excellent cleaning outcome
- Gravity flow process with connection to central vacuum cleaning system
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- Powder coated parts and components for best quality and duration

Technical Parameter

Model	(t/h)Capacity		Air Volume (m ² /h)		Weight	Size L x W x H
	Cleaning	Pre-cleaning	Cleaning	Pre-cleaning	(kg)	(mm)
TXFL80	12	50	2800	3000	230	1020 x 200 x 1450
TXFL100	16	65	3500	3800	360	1520 x 200 x 1450
TXFL120	20	80	4100	4500	400	1820 x 300 x 1450
