

/ Data Sheet

Bran Finisher - Model FPDW

Product Features and Structure:

- Equipment for extracting and separating endosperm bonded to bran
- Rotor equipped with angled blades for assisting material flow in the working chamber
- Rotor applies dynamic balancing to ensure steady operation
- Prismatic stainless steel processing chamber for high efficiency outcome
- Option vent and air intake windows for various requirements
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Spec. Model	Sieve		Speed (r/min)	Capacity (t/h)	Power (kW)	Weight (kg)	Size (L x W x H)
	Diameter (mm)	Length (mm)					
FPDW30 x 1	300	800	1300-1600	0.9~1.0	2.2	320	1270 x 480 x 1330
FPDW30 x 2	300	800	1300-1600	1.8~2.0	2.2 x 2	640	1270 x 960 x 1330
FPDW45 x 1	450	1100	1000 - 1100	1.3~1.5	5.5	500	1700 x 650 x 1620
