

/ Data Sheet

Impactor - Model FSLZ

Product Features and Structure:

- Auxiliary equipment in the milling refining stream
- Option square or round shaped impact pins for strong and moderate force outcome
- Heat treatment to the impact pins for durability
- Rotor disc dynamic balancing to ensure steady operation
- Variety of inlet/outlet arrangement
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Model	Housing Disc Diameter (mm)	Rotor Disc Diameter (mm)	Rotor Disc Speed (r/min)	Capacity (t/h)	Power (kW)	Size (mm)
ZJ43	Ø 493	Ø 448	1450/2900	3.4~5.5	4/3	600 x 590 x 490
ZJ51	Ø 590	Ø 510	1450/2900	5.5~7.5	5.5/4	655 x 675 x 530
