

/ Data Sheet

Rotary Cleaner - Model TQLMZA

Product Features and Structure:

- Suitable for medium and small capacity processing lines
- Dual screen decks for flexible processes
- Reliable screen deck compressing and locking mechanism
- Stainless steel rope suspension structure for easy adjustment of process parameters
- Heavy duty structure for durability and reliability
- Combined material flow routes to accomplish circle, oval and straight movement for high productivity
- Large sight glass for easy observation of processing status
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Model	TQLMZA80	TQLMZA100	TQLMZA125	TQLMZA160
Capacity for Wheat (t/h)	4-6	6-8	8-12	10-15
Screen Width (cm)	80	100	125	160
Screen Leaning Angle (°)	Upper screen leaning angle 7°, lower screen leaning angle 8°			
Speed (r/min)	300			
Power (kW)	0.55	0.55	0.75	1.1
Air Volume (m ³ /min)	60	80	90	100
Weight (kg)	750	800	850	900
Size (mm)	2300 x 1210 x 1320	2300 x 1410 x 1320	2300 x 1610 x 1320	2300 x 1910 x 1320
