

/ Data Sheet

Single Compartment Plansifter - Model FSFJ

Product Features and Structure:

- Extensive Open and closed compartment designs are available
- 6-12 Sieve frames arrangement
- Integrated vertical and horizontal compressing and locking mechanism
- Optimized rotating radius and speed
- Fiberglass rod suspension with stainless steel rope for safety
- Small footprint and flexible applications
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Spec. Model	Sifting area (m ²)	Capacity (t/h)	Power (kW)	Rotation Diameter (mm)	Weight (kg)	Size L x W x H (mm)
FSFJ 1x10x63	2.5	1~1.5	0.75	45	320	1130 x 1030 x 1650
FSFJ 1x10x70	2.8	1.5~2	0.75	45	400	1200 x 1140 x 1860
FSFJ 1x10x83	4.5	2~4	0.75	50	470	1380 x 1280 x 1860
FSFJ 1x10x100	6.4	3~6	1.1	50	570	1580 x 1480 x 1960
FSFJ 1x10x120	10.5	6~10	1.5	50	800	1960 x 1890 x 2260
