

/ Data Sheet

Wheat Scourer - Model FSM

Product Features and Structure:

- Main function is to brush clean wheat grain surface with extra polish
- Unique rotor blades equipped with long brushes
- Rotor blades form a spiral profile for material convey from inlet to discharge
- Bolt on rotor blades for quick replacement and maintenance
- Stainless steel woven screen
- Rotor dynamic rotating balancing to ensure steady operation
- Laser cutting applies to sheet metal components for quality and accuracy
- Carbon dioxide gas shielded welding workmanship
- CNC machining centres ensure precise fabrication
- Powder coated parts and components for best quality and duration

Technical Parameter

Spec.	Drum Diameter	Drum Length	Speed	Capacity	Power	Size L x W x H
Model	(mm)	(mm)	(r/min)	(t/h)	(kW)	(mm)
FSM 40 x 1	Ø 400	935	780	6-9	7.5	1750 x 870 x 1710
FSM 40 x 2	Ø 400	935	780	12-18	7.5 x 2	1750 x 1420 x 1710
